

# CAMPAGNOLO RAYTECH THERMO TEXTRAN BIB PANT

**£109.99** Winter warmers for your legs

**THESE BIB LONGS** come with stretchy waterproof panels over the knees and around the thighs which do a good job of keeping rain and road spray out, and there's plenty of breathability. The fleece-backed Lycra is winter weight and those waterproof sections keep the wind out too so you get plenty of warmth. Up top there's generous coverage over your lower back and an extensive mesh section to add extra insulation. The multi-depth seat pad puts extra thickness right under your sit-bones, most of the seams are flat-stitched and positioned to avoid rubbing around the knees, and a good amount of reflective print gets you noticed at night.
