

Newsletter Team SUNN Rider's Society N°13 - World Cup Mont Sainte Anne & Bromont, Canada

The Team SUNN was in Canada for the 6th and 7th stage of the World Cup.

The week of Mont Sainte Anne is really rainy. The track is really long and technical with several new sections. The 4X track is a completely new track that will be used for the world championship next year.

Friday is qualification day for everyone. Firstly with Anais and Mitch ensuring their participation for the DH final and secondly with Romain taking the 3rd position during the 4X qualification.

On saturday Anais is the first one. She's making a good start but a big mistake on a rapid section at mid stage leave her with a 16th place. Mitch on his side he's producing a clean run but he's not on the good pace and ends with a disappointing 58th place.

All hopes remind on Romain's shoulder. Unfortunately the chance is not on his side too and he's out on the quarter finals.

serious team

After this race the riders are heading towards Bromont for the next round on a completely different track, short and technical with big rock sections and steep terrain.

Friday's qualification goes well, especially for Romain who takes the best time.

Saturday, the finals start under with a great weather. Anais is doing a good race finishing in 12th position, and like last weekend, she takes the victory in Junior category. Unfortunately Mitch his having a puncture on the top section and takes the 72th place.

The 4X race starts at the end of the day. Romain, at ease on this track and ultra motivated after last weekend deception, is easily controlling the first rounds. Unfortunately he's slipping on the 2nd turn during the quarter finals. The race stops here for him.

Next race for the downhiller in Montgenevre for the French Cup.
